Acacia Wood Athletics

Re: Transportation Release

During a complete season of sports, it is necessary to transport the athletes to various locations in Orange and Los Angeles counties for games and team functions. The Acacia Wood vans and personal vehicles are used for these trips, and are driven by the coaches (who may be college-aged young people) and other parents.

- I grant permission to the Acacia Wood coaches and parents to transport my athlete to games and team functions. By doing so, I release Acacia Wood and its affiliates from any liability arising from unforeseen accidents.

- I do not grant permission to the Acacia Wood coaches and parents to transport my athlete to games and team functions. I will arrange, and be responsible for alternate transportation to all games and team functions.
